I feel like I'm missing something obvious. I take it the protesters put the sticker on his windshield? Why's he trying to take it off?

Residents convinced him to do so, to let him proceed with his truck.

He was an occupier. Residents convinced him to quit and leave - after removing the trucker sticker and flag.

I think it is a sticker for the convoy that he put on some time ago,

They were holding him hostage until he removed his opinion from his personal property
